

PREFACE

The anthology of academic articles and studies from the International Scientific Correspondence Conference EAEP 2018 represents one of the intended conference outputs in the scope of research assignments of the experienced collective of research-pedagogical staff of the Department of Economic Sciences and Economy and the Department of Management of the Faculty of Management of the University of Prešov in Prešov.

The aim of the anthology of the correspondence conference held in Prešov on October 21 to October 23, 2018 is to evaluate the status of Grant Projects KEGA 011PU-4/2016, KEGA 035PU-4/2016, KEGA 038PU-4/2018, VEGA 1/0031/17, VEGA 1/0127/16, VEGA 1/0139/16, VEGA 1/0578/18 and to subject the published results to the further scientific and professional discussion through the Internet.

The organizing committee is confident that the International Scientific Correspondence Conference allows its participants not only the mutual exchange of theoretical and practical knowledge but also the personal experience, which contributes to the partial fulfillment of set aims of Grant Projects.

Further information on the International Scientific Correspondence Conference is available on the Internet page (<http://eaep2018.webnode.sk>).

I believe that conference papers contribute through their themes not only to the popularization of scientific-research topics but also to the further discussion of published authors and their followers.

doc. Ing. Rastislav Kotulič, PhD
(Chair of the Organizing Committee of the Conference)
